## TECHNICAL DEPARTMENT

Gestopo, SC has in its team a civil engineer with extensive experience in the field of road and rail works.

Gestopo, SC offers comprehensive project services, from the initial study at the start of a project, right through to its implementation.

Companies that have field teams can avail themselves of our technical department to assist those teams.

We are also able to provide new services such as economic studies for a project, road design, project assessments, project modifications and certification monitoring.
